

Stuffit Deluxe® 2011

Compress It. Secure It. Send It.

The Best in Compression, Backup and Security

Stuffit Deluxe gives you the ultimate in compression and plug-ins to streamline your workflow. Utilize patented technology to shrink your photos and graphics without any loss in quality. Harness the power of Stuffit from directly within iPhoto® and Aperture™. Have Stuffit automatically backup your files to disc or online, and protect your sensitive information with Stuffit's strong 256-bit AES encryption.

Make Your Files as Mobile as You Are

Utilize an innovative new way to send and share files with SendStuffNow™. Securely upload, access and share up to 2 GB of your files from anywhere, even over your iPhone®. Stuffit SmartSend™ automatically chooses the best way to send your files when emailing.

Stuffit has been redesigned to make compressing, backing up and sending your files easier than ever

Securely send gigabytes of files online and track their downloads

NEW! Easy File management—Anytime, Anywhere with SendStuffNow™

Enjoy early access to a new kind of file transfer and storage service. Securely store and send up to 2 GB worth of files and share them via email invitations to download your files.*

NEW! Stuffit Destinations™

Designed to get your files where you need them—fast. Drag-and-drop your files to the provided locations and Stuffit will compress and send your documents, movies, music, photos and more.

Stuffit SmartSend™

Take the guesswork out of sending large files via email—simply select the files you want to send and choose “Stuff & Mail”. Small files are automatically compressed and attached to a new email message, while larger items are uploaded to a secure website via SendStuffNow, MobileMe or FTP.

The Best of Both Worlds

Stuffit Deluxe's 2011 includes a copy of Stuffit for Windows®. Now you can enjoy Stuffit's workflow enhancements on both platforms.**

Plug-in Support for Your Favorite Photo Applications

Access the power of Stuffit directly from your photo editing applications with included export plug-ins for iPhoto® and Aperture™.

Make Your JPEGs Smaller

Stuffit's patented technology compresses any JPEG image up to 30% without any loss of quality! Fit more of your photos on your hard disk, CDs, DVDs and in email.

Optimized Compressors

Stuffit's compressors are specifically targeted for maximum efficiency with MP3s, PDFs, iWork® files and Microsoft® Office documents, emails and presentations. Regain gigabytes of space.

* Three month subscription to SendStuffNow is included with purchase of Stuffit Deluxe 2011. Further premium or pro-level subscription time is available for an additional fee.
** This product includes a version of Stuffit Deluxe 2010 for Windows. Not all features in Stuffit Deluxe 2011 for Macintosh are included in Stuffit Deluxe 2010 for Windows.
